Share this post 24.06.2019, 14:53 Hi, i'm trying to use a program to print that is setup on my linux host. The print job which is being sent to my linux host is being rejected by the host and giving the error "General failure". After this error i tried executing the following command: strace -T -o trace.txt -f -p numberof.pid, \$! But, i am unable to interpret what exactly its doing in trace.txt file. Please help me with the command if you can? Bogdan 24.06.2019, 21:42 Hi, i'm trying to use a program to print that is setup on my linux host.
