Duplicate Doctor is a utility that lets you scan your PC for duplicate files and save you hundreds of megabytes of disk space. You can select specific directories or scan the entire system. ... and the officer. The trial judge, however, merely stated that the officer was "witness to the fact that [Mitchell] was... booked into jail." Accordingly, the trial judge's purported reliance on Hubbard is misplaced. It is not surprising, then, that the State did not argue that Mitchell had admitted booking in on his application to suppress. ¶ 9 The facts as testified to by the arresting officer, read in their entirety, do not constitute an arrest. At most, the officer showed up in response to a loud noise, knowing from the last time the noise was reported that it was a party; requested to make sure no one was injured; witnessed two people run away, apparently to a nearby shed; gave chase to the other two people with the object of removing them from the house and preventing any further disturbance; detained the two individuals for purposes of assuring the safety of the two individuals and the other individuals at the party, as well as the officer; and asked about the individual's status. Moreover, the officer's testimony at the suppression hearing was consistent with his report of the incident made after the arrest. In the report, he averred that he "went to the home on Lynn Street to investigate a noise complaint where I spoke with the complainant who told me that a party was taking place at her neighbor's house.... As I approached the residence I could hear loud music and yelling inside. The complainant and other neighbors were outside and told me that the individuals who were in the residence had been yelling and fighting for over an hour." Moreover, the officer's report states that he learned that STATE v. MITCHELL Opinion of the Court Mitchell was an adult female and that the neighbors stated they believed she was under the influence of alcohol or drugs.

EasyTec Duplicate Doctor includes a small but surprisingly powerful set of features that make it ideal for finding duplicate files on your computer. There are a lot of reasons why people have files on their computer that are identical to each other. They could be images of the same person in different poses, a series of copyrighted music files, or they could be duplicates of the same document. Duplicate files on the computer can easily accumulate to a large number of files, which can represent a real problem if you intend to use the hard drive. Therefore, it is important to be able to detect these files and delete them so that you have more free space available. EasyTec Duplicate Doctor is a user-friendly program that will quickly scan your computer and detect and locate duplicate files that are cluttering it. It can exclude folders, limit the number of items to display, find files by their size and content, and even search based on filenames. So as you can see, there is a lot of tools that come with EasyTec Duplicate Doctor and it can also include a variety of results that can provide you with detailed information about each duplicate item. Once these duplicates have been detected, you can either delete the original or copy it so that you can avoid having to delete the original if the copy works as well. Since EasyTec Duplicate Doctor is a free tool, it is not going to provide you with the most powerful features that come with premium tools, but it still does a pretty good job. It includes several search filters that will make it possible to easily identify the duplicate files, but the program also includes a lot of useful tools. First, you can exclude folders, files, or even whole drives from the scan. For example, if you want to exclude the C: drive, then you can uncheck the 'Show C:' selection and click on the 'Search' button. You can also define the minimum size or the maximum size of a file that should be detected. EasyTec Duplicate Doctor also allows you to look for files that are the same as others based on their extension, even if their name or content differ. In other words, the program enables you to look for files such as .pdf, .jpg, .mp3, and .ogg that are all the same, but their names may differ, so you can easily make sure that you only find duplicates based on the file name and not the content. There are several ways of finding this type of file, b7e8df5c8
