An open-ended underground city building game with a hint of turn-based strategy. Fight for survival, gather resources and grow your colony and civilization. 8 reviews for Stonedeep 4.75 out of 5 Tobias Thomas (Developer) – February 22, 2019 I just can’t understand why in the world there is no campaign nor long-term strategy. Both are basically needed for my continued success in this game. A game that I have sunk nearly 60 hours into. And still counting. 5 out of 5 Lukas (Newbie) – October 5, 2018 It is a rare game that is also great to play. In the first playthrough I lost a bit more than an hour because of little bugs and cosmetic errors. After that I'm now much more focused, and there are even more bugs to fix. It all feels very good and improves the game constantly. Even the AI seems to be improved a lot and I didn't expect much of that. 4.5 out of 5 Chad (Leader) – January 7, 2019 It's a great game for fighting off the hordes of monsters. Like many games of its type it lacks some features, such as gear customization or long-term progression. If you're willing to invest the time, Stonedeep is for you. 3 out of 5 Nick (CJ) – October 14, 2018 I'm a huge fan of the genre of games. I love the simplicity of many hours of gameplay in a rather narrow focus. Stonedeep does lack two main features I prefer for the genre, a long campaign with more content and real-time strategy. 3.5 out of 5 Roger (Developer) – March 9, 2019 I saw Stonedeep on Steam early access and played around with it. I was very interested in what the developers had so far, but I already knew that this game would deviate from the normal underground city builder formula and that it would be an exercise in sheer patience. Some good stuff in this game, and a lot of technical issues as well, but the player can’t really complain at that point – he/she has to keep playing this game! 4.5 out of 5 Benedikt (Customer) – June 2, 2018 Simply fun, albeit

In these dark forests, there are only two rules: 1. Survive. 2. And loot as much as you can. Collect gold while finding healing potions to restore your ever-dropping health. Your flashlight comes in handy, but the battery drains quickly and recharges slowly.
